

JX FILTRATION

Product Quality and Reputation is our first principle.

www.jxfiltration.com

Company Profile

Our Company

We specialize in designing, manufacturing, and selling various filtration equipment and providing comprehensive water treatment solutions to our clients.

Our Team

We have more than 10 professional engineers and 80 experienced workers and domestic distributors throughout 34 districts in China.

Our Products

Wedge Wire Screen, Bag Filter Housing, Self Cleaning Filter, Automatic Backwash Filter, Rotary Drum Filter, Screw Press, etc.

Our Customers

US, Canada, Indonesia, Malaysia, Thailand, Spain, Portugal, Italy, Norway, South Africa, Argentina, Chile, Ecuador, Russia, Nepal, etc.

Our Valued Customers

PT. PELITA CENGKARENG PAPER

NISSAN
MOTOR CORPORATION

BOXMARK®
Best in Leather Interior

CENTURY PAPER & BOARD MILLS LIMITED

الخليج للسكر
AL KHALEEJ SUGAR

الشركة السعودية للجيلاتين والكبسولات
Saudi Gelatin and Capsules Co

Dissolved Air Flotation Machine

Dissolved Air Flotation Machine

Advection Air Flotation Machine

Shallow Air Flotation Machine

Treatment Capacity: Max. 200m³ / h

Application: Industrial wastewater, fat, oil & grease separation, secondary clarifier, concentration of activated sludge.

Note: dimensions, construction material, structure can all be customized.

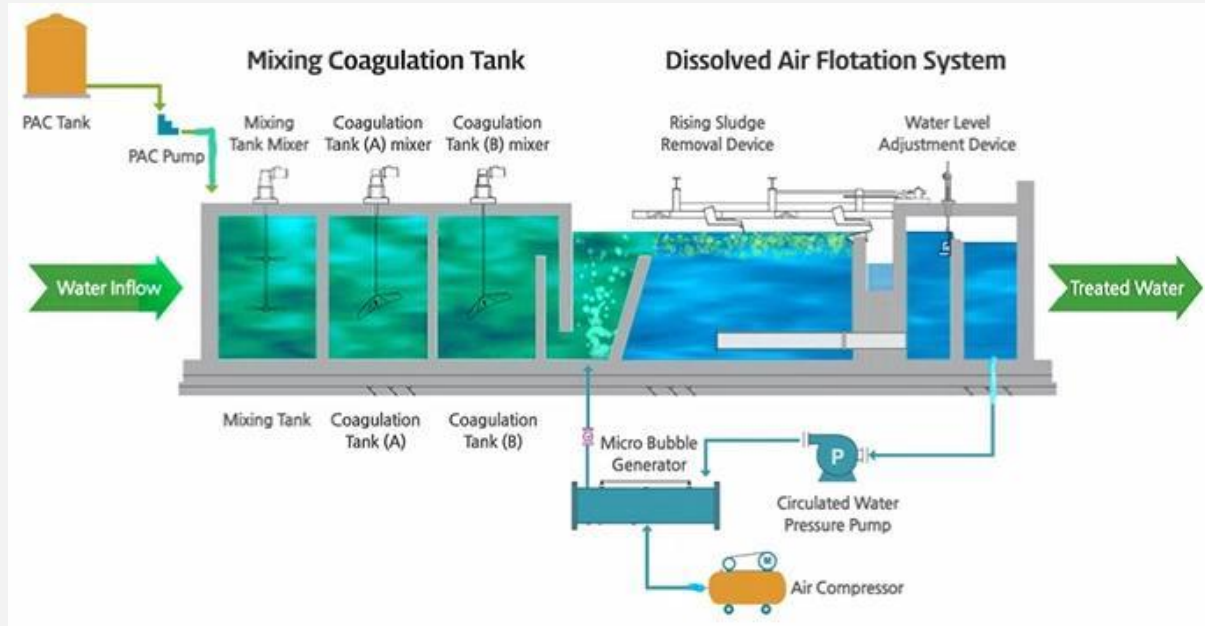

Your trust is priceless!

Details of Finished Product: Advection Air Flotation Machine

Your trust is priceless!

Working Process: Dissolved Air Flotation Machine

Details of Finished Product: Shallow Air Flotation Machine

Pressure Test Report

Water pressure Air pressure Gas-tightness

Production code: JXB202006

NO.: 43870061

Pressure Test Area	Whole Filter	Testing Date	2020-3-19	Technological process card number	08
Accuracy class of pressure gage	1.5	Mpa	0~1.6 Mpa	Testing date	2021.01
Pressure gage number	0304531	Gage diameter of pressure gage(mm)	Φ60	Test fluid	Water
Chloride ion content (mg/L)	≤25	Ambient temperature (°C)	Normal temperature	Fluid temperature (°C)	Normal temperature

Result:

After the filter is tested with 1.25MPa water pressure, there is no leakage; no visible abnormal deformation; no abnormal sound; the test is qualified.

Our Services

Professional Pre-sale Service

1. Filtration method and equipment recommendation.
2. Free CAD or 3D drawing.
3. Equipment can be customized.

Complete Service During Sales

1. On-time delivery.
2. Equipment inspection by photo or video.
3. Secure and standard package.

After-Sale Service

1. Installation assistance by a phone call or video.
2. Free accessories for maintenance.
3. Engineer sent to solve the onsite problem.
